

I'm not a bot

You can now receive official confirmation from the forum by sending a picture to StanleyOG in a private message. Please include yourself, the forum's name, your username, and either the website name or StanleyOG's username. You will need some self-portraits in your gallery for me to compare with your verification picture. Verification is optional and does not grant any extra privileges or access. You should have realistic pictures of yourself when sending a verification photo. Be aware that fake photos are strictly prohibited, as attempting this could result in being banned from the forum. The provided photo will remain private. Best regards, StanleyOG. To get verified on forum, you can send me a PM with a verification picture. This picture needs to have you in it and our forum name on a piece of paper or your body. I need to recognize you from the picture. You should also have some pictures of yourself in your gallery so we can compare them. Verification is not required and doesn't give you extra features, but it means that you are who you say you are. Please don't send fake pictures, as this will get you Banned! Only I can see the verification pictures, and they won't be public.
