Reference ID: aa For younger children aged three and below, foot-to-floor ride-ons and push toys with parent handles are appropriate to ensure they can have fun while still developing their motor skills and balance. Pedal-powered ride-on toys and interactive ride-ons, such as diggers and tractors, are perfect for imaginative play for children aged three to seven. For children aged seven and over, electric ride-on toys and go-kart ride-ons give adventurers a great way to ramp up the fun of outdoor play. What are the Benefits of Children's Ride-On Toys? Using ride-ons can help build coordination skills, strength, and balance, contributing to your little one's physical development. They can also help develop their motor skills due to their need to steer and grip handlebars. Playing with others can also strengthen their imagination and build self-confidence. Like playing with bikes and scooters, ride-ons can strengthen their sense of independence and freedom. There are many reasons why your child will love using our ride-on toys, but the best benefit is that they'll have lots of fun playing outdoors! What Types of Ride-On Toys are Available? In our range, you'll find ride-on toys for toddlers. They can be used indoors and outdoors and have safety features like anti-tipping that keep your little one safe as they explore. They are the ideal starter to improve strength and balance before they move on to trikes and pedal toys. Kids' Electric Cars Let your child mimic the experience of being behind the wheel with our electric ride-on cars and quad bikes. For a realistic experience, look at the Xoots range with replica BMWs, Mercedes, and Land Rovers that feature a 3-speed gearbox, built-in music system, and front wheel suspension for a smooth ride. Recommended for kids aged three to eleven years old, they can choose from sports cars, jeeps, and motorbikes to learn the basics of driving safely and stylishly. Most of our electric ride-ons are powered by rechargeable batteries and range from max speeds between 2.5mph for ages three and above to 7.5mph for children ages eight and older. Ride-On Tractors & Diggers Budding construction workers and farmers will appreciate the authentic experience of ride on tractors and diggers. Packed with many fun features like a working horn, tipping bucket, detachable trailer, and chunky wheels to traverse any terrain, these provide the ultimate off-road playtime. Do Ride-On Toys Have Safety Features? Ride-on toys have plenty of safety features to ensure your child enjoys playtime. Many ride-ons are easy to carry, so kids can fully embrace imaginative play. They have rounded edges and are made from light, well-rounded plastic, so they avoid sharp, nasty edges. Many electric ride-on cars provide padded seats parental controls, such as speed settings. Importantly, all ride-ons have safe steering, which limits turning angles, helping to prevent sharp turns that could lead to the ride-on car tipping. They also have safe and secure brakes, when needed, which let your child easily control the speed of the ride-on. With all this and more, you can rest assured that your child is having a great time using a safe, easy-to-use outdoor toy that contributes to their development and gives them many hours of endless fun.
