The latest patch notes for Escape from Tarkov: Arena, patch 0.16.0.0, reveal several updates and improvements to the game. Among these changes are a new PVE zone available for purchase, with Peper4ik providing a detailed plan for upcoming EFT and EFT: Arena patches. The Battlestate Games team also celebrates their 10th anniversary, marking a significant milestone in the development of Escape from Tarkov and its arena mode. Additionally, the company is actively recruiting new staff members to join the technical support team. Recent patch notes show ongoing updates for the game's mechanics and features, with a focus on improving gameplay and overall player experience.
